ELEKTA CMS SOFTWARE ANNOUNCES FAST AND EASY DOWNLOADS TO UPDATE TREATMENT PLANNING SYSTEMS

ST. LOUIS (July 7, 2009) – Elekta CMS Software today announced the ability to update your radiation treatment planning software with downloads from the company [Web site](#). This new service will offer health care providers an easier, more efficient method to improve software performance.

“Our support team is available to help you with the update process. “If you need additional assistance, simply contact your customer support team for any guidance or advice,” says David L. Murphy, Director, Marketing and Communications, Radiation Treatment Planning Software. “Now, you can have performance improvements more frequently and downloaded with ease. At Elekta CMS Software, our dedication and commitment to your performance is our first priority.”

The first update will be to improve performance when editing MLC leaves, or the MLC contour in Teletherapy.

It’s this Simple

As a customer, you will see a complete list of current updates by release. To begin, click the one you would like for your download. To ensure your clinic has the most current updates at every workstation, you can download directly to your treatment planning system or to a CD, memory stick or external hard drive and load it on each treatment planning system computer.

Software updates will be added on a regular basis at cmsrtp.com/updates. Look for more announcements from your sales and support teams, as well as cmsrtp.com.

About Elekta

Elekta is a human care company pioneering significant innovations and clinical solutions for treating cancer and brain disorders. The company develops sophisticated, state-of-the-art tools and treatment planning systems for radiation therapy and radiosurgery, as well as workflow enhancing software systems across the spectrum of cancer care.

Stretching the boundaries of science and technology, providing intelligent and resource-efficient solutions that offer confidence to both healthcare providers and patients, Elekta aims to improve, prolong and even save patient lives, making the future possible today. Today, Elekta solutions in oncology and neurosurgery are used in over 5,000 hospitals globally, and every day more than 100,000 patients receive diagnosis, treatment or follow-up with the help of a solution from the Elekta Group.

Elekta employs around 2,500 employees globally. The corporate headquarter is located in Stockholm, Sweden, and the company is listed on the Nordic Exchange under the ticker EKTA. For more information about Elekta, visit www.elekta.com.
